self-perceived competencies 785
sibling resemblance 188
social competence 787
suicide 158
symptoms and gender differences 163

developmental ages, estimates of 226

**Developmental Disabilities and
Disorders**
preschoolers' classroom behaviors 153
simple reaction times 169

subtypes 191

Deviant Behavior

development of 175

impact on fiends 304

Diabetes

developmental differences in coping 585

mothers, influences on infant's
psychomotor development 384

dietary intake, Midwestern adolescence
11

dieting, relationship to weight 369

Disabilities

children with 769

factors influencing mothers' perceptions
501

parents self-esteem 876

physical and attitude 441

disaster related events and stressors 808

discharge, early and readmission 390

discipline of young children 593

discrepancy models, effects of
discrepancy determination 135

Discrimination

bimodal events 91

reversal of 107

disorders, epidemiology of 607

distance education, effects of 339

Divorce

effects on mental health 831

preventative programs for adolescents
605

domain theory and moral activity 329

Down syndrome

coordinated joint attention 174

effects on parents' activities 149

event related potentials 173

joint attention problems 781

motor and vocal milestones 475

name-nameless category 505

play 155

use of gestures 161

Drawing

declarative and procedural knowledge
45

pets and attachment to 248

projection systems 30

dreams 15

drinking behavior, rural adolescents 521

Drug abuse

developmental outcome of children 795

impact of parent monitoring 474

maternal and toddler sadness 207

parents, effects on toddlers anger 822,
823

reduction of 559

social factors 313

sociodemographic analysis of athletes'
295

dynamical approach to locomotor skills
